ACHIEVEMENTS

- **Winner — Smart India Hackathon 2024**, recognized for solving P.S ID SIH1605 (Women Safety Analytics).
- **Grand Finalist — IDE Bootcamp** (Edition 2, Phase 2), organized by the Ministry of Education, Govt. of India, and Wadhwani Foundation.
- **Top 10 Finalist — LOGITHON**, a national-level hackathon, demonstrating expertise in problem-solving and innovation.
- **Top 30 Finalist — MUJHackX2.O**, securing a spot among 300+ teams for technical excellence.

SKILLS

- **Programming & Databases:** Swift, Flutter, Dart, JavaScript, TypeScript, Python, Node.js, Express.js, PostgreSQL, MongoDB
- **Machine Learning & AI:** NLP (BERT), OpenCV, TensorFlow, Scikit-Learn
- **Web3 & Blockchain:** Ethereum Smart Contracts, Solidity, Web3.js
- **State Management & APIs:** Provider, Riverpod, Bloc, REST APIs, WebSockets
- **Tools & Frameworks:** Firebase (Push Notifications & Analytics), GitHub, Docker, VS Code

PROJECTS

1. **Vyom Assist – (AI, NLP, MERN, Flutter)**

July 2020 - Jan 2022

 - Built an AI-driven banking assistant using BERT for NLP to automate queries and service ticket routing.
 - Integrated video/audio processing for real-time speech-based query resolution.
 - Developed a Flutter app and a MERN-based dashboard for customer support automation.
2. **Raksha – (Flutter, Dart, MERN Stack, AI-ML)**

July 2020 - Jan 2022

 - Designed an AI-powered safety alert system with weapon detection and vehicle tracking.
 - Built a Flutter app with real-time alerts and a MongoDB-powered backend for data analysis.
 -
3. **InfluencerHub – (React, Web3, Node.js, Express, . PostgreSQL)**

July 2020 - Jan 2022

 - Developed a Web3-based authentication system for secure influencer-brand collaborations.
 - Built a PostgreSQL & MongoDB hybrid database for real-time analytics and tracking.
4. **iSecure – (Swift, Firebase, AI-ML)**

July 2020 - Jan 2022

 - Developed an iOS security app with AI-based threat detection and real-time alerts.
 - Integrated Firebase authentication and push notifications for emergency response.

WORK EXPERIENCE

- Full-Stack Developer | MenuGenius (Startup) (Dec2024-Feb2025))
- Developed a Flutter & React platform for digital menus and seamless order placement.
- Built a Node.js & Express.js backend with WebSockets for real-time order management.
- Optimized PostgreSQL & MongoDB for secure and efficient data storage.
- Integrated a Web3 loyalty system for blockchain-based customer rewards.
- Deployed Firebase push notifications for order updates and promotions.

EDUCATION

Datta Meghe College of Engineering , B.E in Information Technology	-	2022 - 2026
K.J SOMAIYA COLLEGE OF SCIENCE AND COMMERCE, H.S.C	-	2021 - 2022
LOK KALYAN PUBLIC SCHOOL, S.S.C	-	2019 - 2020
