## OBJECTIVE

I'm an aspiring software developer and tech enthusiast, diving into the world of web development and machine learning. I'm learning how to create new and useful things online. My goal is to use what I learn to make life easier for people. I'm always exploring and learning more, eager to use technology to solve problems and make a difference in people's lives.

## EDUCATION

**Bachelor of Technology in Computer Science and Engineering (Artificial Intelligence and Machine Learning)**,  Pursuing (Expected 2026)
Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology (SPIT)
Agg. CGPA : 7.51

**HSC - Maharashtra State Board (87.33 %)**  2021-2022
Chhatrapati Shivaji Maharaj Jr. Science College, Jalgaon

**SSC – Maharashtra State Boad  (94.40 %)**  2019-2020
Raosaheb Rupchand Vidyalaya, Jalgaon

## TECHNICAL SKILLS

| | |
|---|---|
| **Technical Languages** | Proficient in C, C++, Java and familiar with Python |
| **Web Development** | HTML, CSS, JavaScript, React, Node, Express, MongoDB, MySQL |
| **IDEs** | Visual Studio Code, Replit |
| **Version Control** | Git, GitHub |

## PROJECTS

**Grocery List Project :** One of my first React projects. Not a creation of my own but I have made changes along the way to make the website cater to my needs. ([Link](#))

**Blog Project :** A full blog project with Post, Delete and Edit functionalities. Working on creating a solid database and backend to consolidate with the Frontend capabilities of the project. ([Link](#))

**Contact Manager:** A backend project to handle contacts and info of people. Project made using Nodejs and Express js. ([Link](#))

**Share Plates:** A web dev project using MERN stack to help NGOs to get leftover food from restaurants or hotels. ([Link](#)).

## EXTRA-CURRICULAR

**Working with NGO :** Worked with library of SPIT, helping them for managing library stuff.          April – May 2023
